

MATT LANGENBAHN

Vice President, Assured Communications Systems

Matt Langenbahn is the Vice President of Kratos RT Logic's Assured Communications Systems (ACS). The ACS segment delivers Radio Frequency (RF) Monitoring, Analysis, Interference Mitigation, and Geolocation Systems in support of Federal programs.

Matt joined Kratos RT Logic in 2008 in the Satellite Ground Systems (SGS) segment. Prior to becoming the Vice President of ACS, he spent 10 years supporting operational satellite ground systems as a Project Manager, Business Area Manager, and most recently Deputy Segment Lead. Matt has supported dozens of satellite programs, including commercial, civil, DoD, and classified systems.

He previously worked for Hewlett-Packard/Agilent in the Oscilloscope and Electronic Measurement Design division. He has a B.S.E.E. in Electrical Engineering from the University of Idaho, and will gain an M.B.A. from the University of Colorado in 2018.
