

# JOHN MONAHAN

President of Kratos|RT Logic and  
Senior Vice President of  
Kratos Technology & Training Satellite Products  
and Federal Solutions

John Monahan is the President of Kratos RT Logic and Senior Vice President of Kratos Technology & Training Satellite Products and Federal Solutions. John, with RT Logic since 2006, has spent 30+ years in the Space Industry developing, integrating, deploying, and operating systems in support of Government and Commercial customers. He directly supported NASA, AFSPC, Intelligence Community (NRO/NSA), Space Control Community, among others during his first 20 years with the Air Force in roles that included Space Shuttle Flight Controller, MILSATCOM Operator and Engineer, and Program Manager for numerous DoD, Civil, and Intelligence Community missions. He leads Kratos RT Logic, a growing company of over 250 people, dedicated to providing support to 90% of government satellites with over 6500 ground system solutions deployed to both government and commercial customers. In his role as SVP, KTTS Satellite Products and Federal Solutions, he oversees 450 employees at 9 locations. John received his Bachelor of Science in Electrical Engineering from Villanova University and Master of Business Administration from the University of Houston.
